Thank you for your participation in the call this morning. Recognizing that it may helpful to get NOAA and EPA's messages and talking points sooner rather than later, we are sharing with you our talking points. As we emphasized on the call, we are very committed to working with the State to achieve full program approval.

We will be proposing follow-up meetings with you next week to map out the path forward. Look forward to working with you. Please let us know if you have any questions.
